Microsoft Dynamics 365 Commerce Compared to the Competition

There's no shortage of eCommerce platforms on the market, from open-source solutions like WooCommerce to enterprise platforms like Salesforce Commerce Cloud. Choosing the right one can seem daunting when every retail and eCommerce company has unique needs and goals, not to mention back-end systems and processes, and every platform has its strengths and weaknesses.

Key Questions Every Retailer Should Consider

● How serious am I about true omnichannel sales?

● How am I going to integrate with my ERP and accounting software?

● How am I going to support my call center and customer service teams?

● Do I need a solution that also supports in-person Point of Sale purchases?

● What about order management after an order is placed?

● What other systems like my CRM are going to be impacted?

● What is the total cost of ownership including licensing and implementation?

● What other benefits can I achieve with the right platform?

Microsoft Dynamics 365 Commerce

The Only Unified Omnichannel Solution on the Market

Microsoft Dynamics 365 Commerce Comparison Chart

Core Features

Every eCommerce platform needs to display products and accept orders but checking out a customer is just the first step in the fulfillment process. Retail organizations looking to optimize their order management and delivery process need to look beneath the surface, and ensure their platform of choice supports end-to-end order management, online, in person, and on the phone.

	Microsoft Dynamics 365 Commerce	Salesforce Commerce Cloud	Shopify	Adobe Magento
B2B commerce	Yes	Yes	Yes	Yes
eCommerce	Yes	Yes	Yes	Yes
Point of Sale	Yes	No	Yes	No
Call Center	Yes	No	No	No
Order Management				
Distributed OM	Yes	Yes	Yes	Yes
Intelligent OM	Yes	No	No	No

Payments and Fraud Protection

Taking payments is the easy part in modern commerce. Ensuring those payments are from actual customers and aren't fraudulent is the new challenge. Smart retail organizations will select a platform of choice that includes robust payment options including split payments and built-in fraud protection.

	Microsoft Dynamics 365 Commerce	Salesforce Commerce Cloud	Shopify	Adobe Magento
Online Payment Processing	Yes	AppExchange Integration required	Yes	External integration required
Integration Fraud Protection	Yes	External integration required	External integration required	Yes
Split Payment Plugin Support	Yes	Yes	Yes	Yes

Out of the Box Integrations

A commerce platform is just one part of your technology stack. Chances are, your organization has many others and keeping them in sync is becoming increasingly important if not challenging. Before you select a commerce platform of choice, be sure it fully integrates your existing or planned software, easily and efficiently.

	Microsoft Dynamics 365 Commerce	Salesforce Commerce Cloud	Shopify	Adobe Magento
ERP	Yes	No	No	No
CRM Sales, Service, and Marketing	Yes	Yes	No	No
Analytics	Yes	Yes	No	Yes

Customer Loyalty and Promotional Features

It's no secret that loyal customers drive more revenue and repeat business, or that innovative promotions are a huge part of a successful retail strategy. A modern commerce application needs to do both, across all channels and touch points.

	Microsoft Dynamics 365 Commerce	Salesforce Commerce Cloud	Shopify	Adobe Magento
Integrated Loyalty Program	Yes	Limited	External app required	Limited
Discounts and Promotions	Yes	Limited	Yes	Limited
Price Controls	Yes	Yes	-	-
Product Recommendations	Yes	Yes	Yes	Yes

Web Content Management and Design

Retail moves fast and modern eCommerce sites can be updated dozens of times a day, launching new products, special categories, offers, and more. Can your eCommerce platform support all of your content management needs and then some?

	Microsoft Dynamics 365 Commerce	Salesforce Commerce Cloud	Shopify	Adobe Magento
Headless CMS	Yes	Yes	Yes	No
Reusable Page Templates	Yes	Yes	Yes	Yes
Content and Design Fragments	Yes	Yes	Yes	Yes
Publishing Controls	Yes	Yes	Yes	Yes
