

High-Performance Sandblasters for Sale to Transform Surfaces

Our dry sandblasting machines are old and made with cutting-edge UK technology. The Elcometer range of sandblast machines is designed to work harder, last longer and naturally outperform the competition. The airflow is optimised with a 1 ½ pipe diameter, and the higher nozzle pressure ensures faster coverage. Our sandblasting pot range meets international industrial blast equipment standards, including the Australian AS1210.

Whether you're a professional blasting contractor needing top-notch industrial blasting equipment or seeking a reliable sandblaster for surface treatment for your own business, our comprehensive range of dry abrasive blasting solutions will meet diverse sizes and requirements.

Quantum Blast is committed to delivering the highest quality **sandblast equipment** at the best price.
